Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought
- A Drought Proclamation Continuation from Sutter County has been received.
- A Drought Proclamation Continuation from Glenn County has been received.

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

SIGNIFICANT FIRE ACTIVITY

Northern California:

Ward Incident , Plumas County, FRA

Per Cal OES FDO and CAL FIRE ICS-209 dated 04/17/15 at 0737 hours:

- 10 miles SE of Taylorsville
- Type 3 IC
- 137 acres at 94% – Expected Containment 04/17/15
- Structure threat has been mitigated
- Minimal fire activity overnight
- No OES or Local Government resources committed

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure over the west coast will maintain warm weather in the interior through the weekend. Coastal areas will see low clouds mainly during the night and morning hours through the weekend.

Medford Weather:

Highs in the lower 70s to lower 80s can be expected with east winds approximately 5 mph shifting to the north late this afternoon. Tonight will be mostly clear with lows around 40 in the valleys and in the mid-40s to lower 50s. In the higher elevations northeast winds 5 to 10 mph.

Reno Weather:

Well above normal high temperatures are on tap through early next week. There will be a slight chance of showers and thunderstorms in the Sierra over the weekend which will spread into northeast California and western Nevada by Tuesday. Cooler temperatures with increasing chances for precipitation are expected for the second half of next week.

San Francisco Weather:

High pressure over the California coast will maintain dry weather conditions along with temperatures above seasonal averages through the weekend. Temperatures cool slightly for the first half of next week with a slight chance of showers across the region.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Very warm temperatures should be expected through the weekend. A weak weather system will bring a slight chance of mountain showers or an isolated thunderstorm this weekend. Temperatures then start cooling Monday through Wednesday with a chance of rain most areas.

Hanford Weather:

High pressure continues to build over the area with mainly dry conditions and temperatures going above average into the weekend for the valley and foothills. A threat of showers and thunderstorms does exist over the crest of the Sierra Nevada during the weekend and into Monday. A change in the weather pattern may be possible next week as a low pressure area moves in from the pacific. This may bring a threat of showers and thunderstorms to central California beginning Tuesday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Pleasant weather expected today with continued clear and warm conditions. An approaching trough will settle in over the region early next week and bring much cooler conditions and the possibility of a few showers by mid-week with snow showers possible in the mountains.

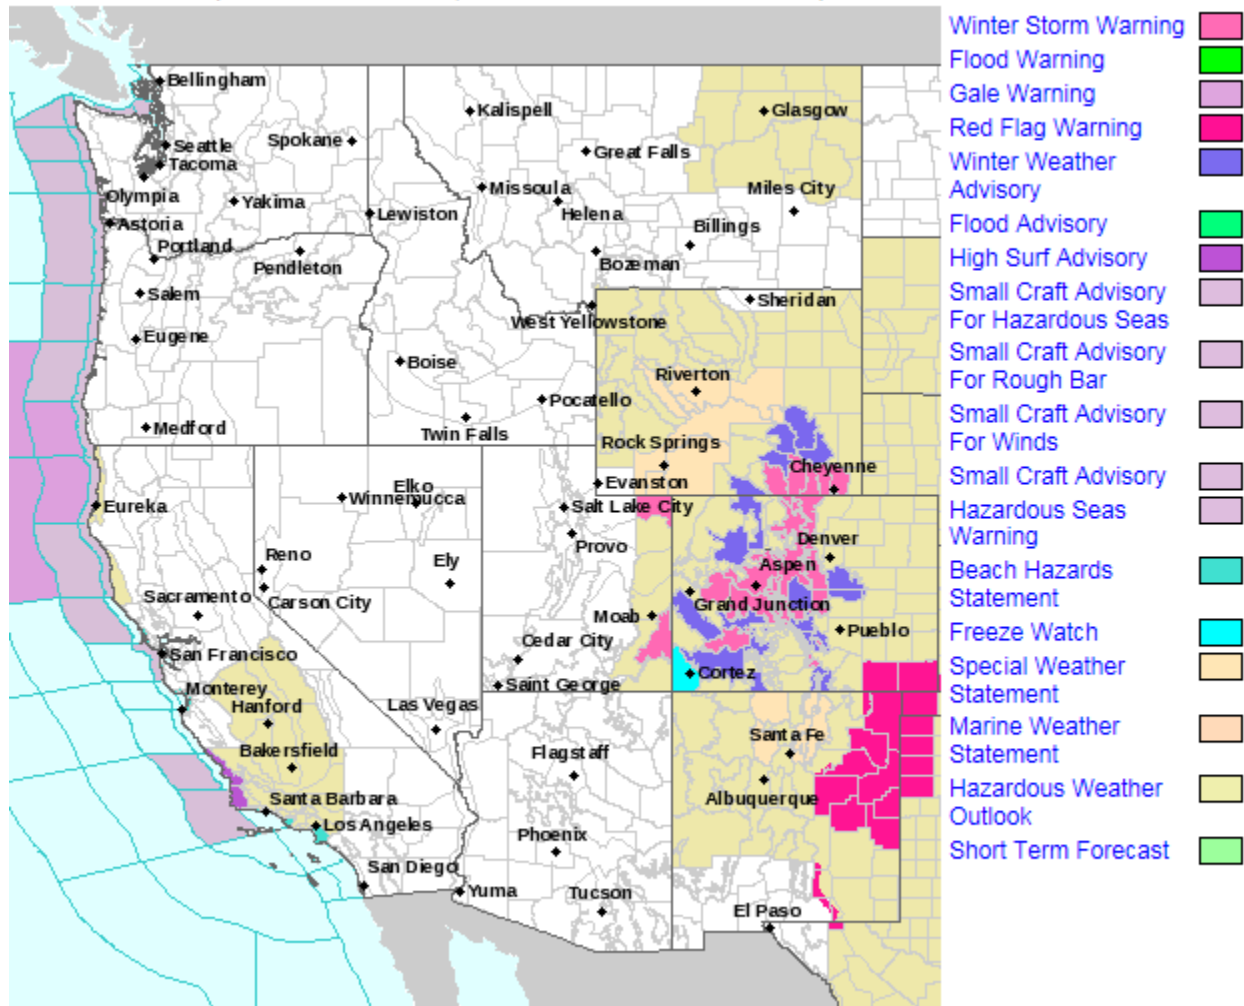

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Fair weather will continue through early next week but with a gradual cooling trend. Coastal low clouds will begin to appear this weekend during the nights and mornings extending farther inland each night next week. A low pressure trough developing along the west coast will bring cooler weather more clouds and a chance of showers Wednesday and Thursday.

Southeast California Weather:

Mostly clear skies and warming temperatures are expected Friday into the weekend. Look for high temperatures in the lower deserts to be a few degrees below normal on Friday but climb back into the 90s by Saturday. Dry and warm weather will persist into the middle of next week...but an approaching storm system will bring cooler temperatures and a slight chance of showers to the region Wednesday into Friday.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

Project Totals as Day 18:

38	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
26	Debris removal completed.
22/9	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 18:

Category	Total Tons
Debris and Ash Disposed	2,393
Soil Disposed	3,273
Metals Recycled	1,088
Concrete Recycled	2,022
Total All Categories	8,776

Estimated Daily Tonnage:

Category	Day 18
Debris/Ash	112
Soil Disposed	283
Metal Recycled	39
Concrete Recycled	138
Total	572

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

[CSTI on the web](#)

[CSTI Course Schedule](#)

Training Delivery

The California Specialized Training Institute (CSTI) delivers specialized training throughout California as well as at its main campus in San Luis Obispo year-round. Currently, CSTI offers over 100 course titles in the disciplines of emergency management, criminal justice/officer safety, terrorism, hazardous materials, disaster mitigation, preparedness and recovery, and crisis communications.

CSTI can also develop custom courses for your organization or jurisdiction. CSTI uses national standards and curriculum as the core of its training delivery program. Many of CSTI's courses can be applied to FEMA's Advanced Professional Series, or the California Governor's Office of Emergency Services Specialist Certificate and Credentialing programs.

CSTI delivers training to state and local government agencies, tribal organizations, businesses, non-profit organizations, and numerous other organizations. CSTI designs a variety of training for entry-level, mid-career, senior management, and executive level professionals.
